### JESSIE'S STORY ENROLLED SINCE: 2012

Jessie is a happy-go-lucky Border Collie-Lab mix that has a special place in our hearts. She comforted my mom as her abilities were diminished by age, and sat patiently with her "dad" as he recovered from cancer surgery.

When she started snoring we thought it was cute at first, but as it got worse we took her to the vet. Jessie had an unusual inoperable cancer. Thankfully, we prepared ourselves for Jessie's care several months earlier by enrolling Jessie in Trupanion.

When we were told Jessie could enjoy a high quality of life through chemotherapy, we didn't hesitate. Today, Jessie is in full remission and her health and energy levels are both great. I can truly say Trupanion saved Jessie's life by giving us the ability to obtain the best available care for her.

### CERREH'S STORY ENROLLED SINCE: 2010

Cerreh has been one surprise after another since the day I rescued her. In her first visit with the vet, we discovered she had a neurological disorder. Knowing how expensive veterinary care can be, I decided to insure her. A few months after enrolling her, I discovered she had stomatitis and needed almost all of her teeth extracted. Days later she developed complications and needed an additional surgery to shave off some of her jawbone. Any doubts I had about her needing insurance were gone after receiving over \$2,200 in claim reimbursements.

As soon as her mouth healed up, Cerreh had another surprise. She somehow got a two inch gash in her back. Then, in the spring of 2013, she ate a feather toy. When the vet told me it would cost \$3,500 to treat her I didn't even hesitate because she was insured.

I know, regardless of what other surprises she has in store, Trupanion has us covered.
